

# make your own grass head person

you will need:

- soil
- grass seed
- a pair of tights
- a jar

...and bits to decorate with!

Watch them grow!

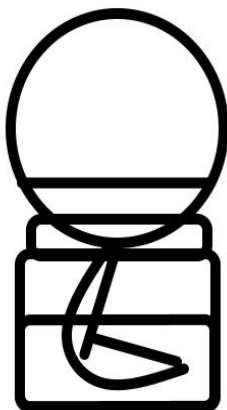

1. Cut tights around 5 or so inches from the toe

2. Put 2 x tsps of seed, then a large handful of soil

3. Tie a knot so that you have a ball with the seed at the bottom and a "tail" at the top

4. Half fill a jar with water and place the ball upside down with the tights hanging down into it. Decorate!

Use paper for eyes and other features

Using paper you can make a sleeve for the jam-jar and dress them up!

Full growth should happen in 10 days
